

RETROUVÉ
ART.SCIENCE.BEAUTY.

“It’s a real art to make a cream that has a certain texture and feel. There are so many properties to consider in order to establish the right balance, and that’s something my chemist and I have been working on for over thirty years.”

Jami Morse Heidegger

GENESIS

More than just a brand, Retrouvé is part of a legacy. This exclusive collection of prestigious unisex skincare products was initially developed by beauty visionary Jami Morse Heidegger and husband, Klaus Heidegger, for their own personal use. The line wields new technologies and high-octane potent ingredients in superior concentrations and unprecedented textures to set a new standard in luxury skincare.

Trailblazers in the cosmetics industry, Jami and Klaus steered the family's skincare line, Kiehl's Since 1851, into a cult beauty brand after taking over the reins from Jami's father, Aaron Morse, in 1988. Jami's grandfather, Irving Morse, had acquired the original pharmacy in 1921, after apprenticing with and working for Mr. John Kiehl. Within three generations, the family business grew into one of the most iconic skincare brands of all time, ultimately leading to the company's sale in 2000 to L'Oréal. Jami and Klaus worked closely with their chemist on a myriad of Kiehl's products, after which the three reunited to embark on this deeply personal project - distinctly different from anything they had done previously.

Formulated to maintain the functioning of the living cells of the dermis and infused with ingredients scientifically identified for their preventative properties, Retrouvé represents an anthology of over thirty years of collective experience, research and collaboration resulting in a super-luxurious bespoke skincare line distilled from this extraordinary family's deep knowledge and aesthetic vision of skincare.

INTRODUCTION

Retrouvé incorporates advanced skincare technologies and high concentrations of clinically proven ingredients in a unique delivery system that penetrates the epidermis, allowing for nourishment to the dermis.

As new cells rise through the epidermal layers of the skin, they undergo multiple stages of cell differentiation - a process that dramatically alters their size, shape, function and responsiveness to cellular repair and regeneration signals.

The health and appearance of the skin begins with strong communication and robust nutrient exchanges between the epidermis and dermis. The capacity for these two main layers of skin to sustain effective levels of cell activity plays a pivotal role in the rate of cell regeneration and overall skin longevity.

Over time, the slowing of cell response and movement, along with damage to skin from sun exposure and free radicals, leads to a weakening of the core functions necessary to maintain youthful, radiant skin.

Retrouvé works harmoniously with these natural regenerative processes to optimize the skin's ability to nourish, strengthen and repair itself.

Each Retrouvé product is a unique custom blend of powerful ingredients that were selected for their ability to protect, nourish or restore vitality to the skin.

The synergistic effects of these ingredients and their ability to penetrate deeply into the skin strengthen their effectiveness, thereby creating the mastery of Retrouvé.

Please visit www.retrouve.com for detailed ingredient information.

PREVENTIVE BENEFITS

Antioxidants and other beneficial ingredients help protect skin from internal damage and harmful environmental external factors. Retrouvé incorporates a distinct blend of: *White Tea, Pomegranate, Coenzyme Q10, Superoxide Dismutase, Palmitoyl Oligopeptide, Plant Complex of Wheat, Sunflower, Horsetail and Myrrh, Yeast Amino Acids, Tricalcium Phosphate and Morinda Citrifolia Extract.*

DEEP NOURISHMENT

Enriching vitamins and soothing ingredients moisturize, heal and protect the skin. Retrouvé contains a select combination of: *Squalane, Vitamin E, Vitamin C, Retinyl Palmitate, Provitamin B5, Vitamin B3, L-Proline and Allantoin.*

RESTORATIVE TECHNOLOGIES

Powerful plant and marine actives restore, reactivate and increase the longevity of skin cells. Retrouvé integrates: *Apple Stem Cells, Laminaria Extract, Hydrolyzed Algin, Ambiaty Extract, Padina Pavonica and Pischia/Resveratrol Ferment Extract.*

LUMINOUS CLEANSING ELIXIR

An elegant, water-free cleansing balm rich in beneficial oils that is ideal to massage onto the skin for an ultimate cleansing experience, Luminous Cleansing Elixir hydrates the skin while gently removing dirt, debris, and residue from its surface. This easily-spreadable, yet richly textured, effective moisturizing cleanser has been formulated to be removed easily from the skin so as to avoid unnecessary pressure or pulling to the delicate facial area.

OUR RECOMMENDATIONS

Luminous Cleansing Elixir is recommended for all skin types. After cleansing with this product, skin will feel soft and smooth, never tight or dry.

USAGE

Using clean fingertips, lightly massage onto damp or dry skin, avoiding the immediate eye area. Remove with a damp washcloth or moist cotton pad.

Please visit www.retrouve.com for ingredient listing.

SKIN BRILLIANCE PRIMING PADS

Our plush priming pads are imbued with a scientifically-balanced solution that features a clinically-effective level of fruit-derived acids to hasten the exfoliation of dead tissue as panthenol provides a soothing effect. Skin Brilliance Priming Pads prepare the skin in a gentle, non-abrasive manner to receive maximal benefits from the subsequent application of skincare treatments and to promote a healthy and radiant-looking skin appearance.

Our Skin Brilliance Priming Pads exfoliate without the use of potentially abrasive physical scrubbing ingredients that can also pull at or “tug” the skin unnecessarily through use and cause damage over time. A physical scrub only works while being manipulated on the skin. In contrast, since our balanced formula is not rinsed off and remains on the skin, the exfoliating and soothing benefits are prolonged in a balanced manner.

Skin Brilliance Priming Pads promote a radiant complexion by gently and naturally exfoliating dead tissue that would otherwise occlude the complexion and interfere with the optimal delivery of the nourishing and hydrating benefits from our Intensive Replenishing Facial Moisturizer, Nutrient Face Serum, Dynamic Nourishing Face Cream, or other facial moisturizer.

OUR RECOMMENDATIONS

Skin Brilliance Priming Pads are recommended for all skin types.

USAGE

After cleansing, pat skin dry gently with a clean towel or soft cloth. Lightly glide a Skin Brilliance Priming Pad across skin in short, upward strokes, avoiding the immediate eye area. Do not rinse. Allow solution to remain on skin for several minutes to dry before applying serum or moisturizer. May be used up to one or two times per week.

Please visit www.retrouve.com for ingredient listing.

REVITALIZING EYE CONCENTRATE

A luxurious, water-free eye-area formulation that enriches and enhances the delicate skin around the eyes, Revitalizing Eye Concentrate is imbued with a powerful fusion of potent and beneficial ingredients and is designed to hydrate the skin in the same way the skin would do so naturally. The skin that surrounds the eyes is one of the first areas of the face to show signs of aging; our nourishing balm-concentrate is formulated to help protect the under-eye area from the appearance of damage due to age, sun exposure, dryness, and facial gesticulation. Revitalizing Eye Concentrate's silky texture glides across the skin and will not stress or pull skin in the fragile eye area upon application.

OUR RECOMMENDATIONS

Revitalizing Eye Concentrate is most often recommended as an overnight treatment for all skin types that require the ultimate in eye-area hydration. Those with very parched or mature skin may opt to use this preparation as a daytime treatment and moisturizer as well.

USAGE

Pump a small amount of Revitalizing Eye Concentrate onto clean fingertip and, using a gentle tapping motion, apply along the orbital bone, avoiding direct contact with eyes or immediate eye area.

We recommend applying Revitalizing Eye Concentrate to clean skin as the first step in the Retrouvé facial moisturizing ritual; Revitalizing Eye Concentrate should be applied before the Nutrient Face Serum, Dynamic Nourishing Face Cream and/or Intensive Replenishing Facial Moisturizer.

Due to its unique balm-like texture, if using Revitalizing Eye Concentrate underneath makeup, please note that it may be necessary to wait for 10 – 15 minutes for the treatment to be absorbed by the skin before applying other cosmetic products or continuing with one's facial grooming routine.

Please visit www.retrouve.com for ingredient listing.

NUTRIENT FACE SERUM

(Our Most Universal Moisturizing Formulation – Light Texture)

Our lightest textured moisturizer for face, neck, and décolleté/upper chest area, our water-based Nutrient Face Serum is a potent complex concentrate that helps to maintain the skin's natural, healthy-looking appearance while advanced enriching ingredients nourish and lightly hydrate.

OUR RECOMMENDATIONS

This Serum is recommended for most skin types and is ideal for those with normal to slightly oily skin who are concerned about or already experiencing signs of aging.

USAGE

Apply Nutrient Face Serum to clean skin on the face, neck, and décolleté or upper chest area, if desired. Always avoid the eye area. Nutrient Face Serum may be worn alone when less hydration is preferred or layered under a richer moisturizer for added benefit. This product is appropriate for application in the day and/or night.

Please visit www.retrouve.com for ingredient listing.

DYNAMIC NOURISHING FACE CREAM

(Medium Texture)

Dynamic Nourishing Face Cream is a classic, creamy moisturizer for the face, neck, and décolleté/upper chest area that elegantly delivers potent and nourishing ingredients to the skin, thus imparting softness and hydration. Utilizing a unique sugar-based system, this non-greasy soothing moisturizer imbues the complexion with ingredients essential for imparting a healthy look to the skin. Dynamic Nourishing Face Cream utilizes the power of lamellar gel technology to provide significant aid in the maintenance of skin hydration levels in a similar manner as the skin does naturally.

OUR RECOMMENDATIONS

Dynamic Nourishing Face Cream is recommended for normal to dry skin.

USAGE

Apply Dynamic Nourishing Face Cream to clean skin on the face, neck, and décolleté or upper chest area, if desired. Always avoid the eye area. Dynamic Nourishing Face Cream is light enough in texture to be used under makeup, if worn. This moisturizer is appropriate for application in the day and/or night.

Please visit www.retrouve.com for ingredient listing.

INTENSIVE REPLENISHING FACIAL MOISTURIZER

(Rich Texture)

Known as Retrouvé's pièce de résistance, Intensive Replenishing Facial Moisturizer features a luxurious, rich texture and a powerful proprietary blend of potent and effective ingredients that are known to lock moisture within the skin while enabling it to breathe. Imbued with Apple Stem Cells, humectants, and oil-based ingredients, this emollient elixir is formulated to moisturize, nourish, and enhance the skin, leaving its appearance revitalized and radiant.

OUR RECOMMENDATIONS

Intensive Replenishing Facial Moisturizer is most often recommended as an overnight treatment for normal to dry skin types that require intense hydration. It may be used on the face, neck, and décolleté/upper chest area. Those with very parched or mature skin may opt to use this preparation as a daytime moisturizer as well.

USAGE

Apply to clean skin on the face, neck, and décolleté or upper chest area, if desired. Always avoid the eye area. Allow preparation to remain on and be absorbed by the skin. Intensive Replenishing Facial Moisturizer may also be used to treat isolated dry patches on the skin as needed.

Please note that due to its unique hydrating and conditioning properties and distinctly rich texture, if using Intensive Replenishing Facial Moisturizer underneath makeup, it may be necessary to wait for 10 – 15 minutes for the treatment to be absorbed by the skin before applying other cosmetics or continuing with one's facial grooming routine.

Please visit www.retrouve.com for ingredient listing.

FOR BEST RESULTS

In order to maximize your luxury skincare experience and to assist in the maintenance of Retrouvé products, we recommend the following:

1. Products should be applied only to clean skin.
2. Always cleanse hands thoroughly before applying any products to the face or eye area in order to prevent germs, bacteria, dirt, or other contaminating substances from being transferred from your fingers.
3. If you are an individual with sensitive skin, we recommend applying a small amount of product to the inside of wrist or elbow area and leaving on for several hours as a “patch test.” This process will help you to assess whether a product is compatible with your skin type before you apply it to your face or eye area.
4. Should any irritation be noticed or felt from this or any other skincare product, remove product immediately with warm water or a clean cloth or cotton pad, and discontinue use. Consult a physician should prolonged irritation ensue after removing product from affected area.
5. For optimal maintenance of the efficacy and integrity of the product, do not expose to extremes of hot or cold temperatures. Ideally, products should be stored in a dry place at room temperature and away from areas of humidity or that incur frequent changes in temperature such as the shower or bathing area.
6. Do not let fingertip directly touch the nozzle of the dispensing area. Instead, allow the pump to project the product onto clean fingertip and repeat as needed.
7. When using skincare preparations for the care of skin around the eye area, it is important to apply in gentle tapping motions along the orbital bone area, expanding outward from the cheek toward the temple area, avoiding direct contact with the eye or immediate eye area.
8. These products are for external use only. Do not ingest.

Retrouvé is not tested on animals and aims for an environmentally conscious use of materials.

To preserve the high concentrations of actives in each formula from the detrimental effects of light and oxidation, Retrouvé is made under vacuum and delivered in black airless glass containers. Exposure to extremes of temperature should be avoided.

Retrouvé does not contain dyes, artificial fragrances, parabens, silicones, petrolateums or mineral oils.

IN THE PRESS

Retrouvé's products are gold dust amongst those in the beauty-know.

VOGUE

The feel of each of these serums and creams is extremely luxurious, but we can't get over the jet black packaging. They're sexy AND effective.

THE HUFFINGTON POST

Luminous Cleansing Elixir provides the ultimate cleansing experience!

Forbes

Perfect for anyone who wants to simplify their routine, Retrouvé Skin Brilliance Priming Pads gently exfoliate via natural, non-irritating botanicals.

LES CARATS
— A LUXURY LIFESTYLE GUIDE —

Choose a water-free skincare formula if you like a rich, emollient cream or balm – we love Retrouvé Revitalizing Eye Concentrate.

NEWBEAUTY
MAGAZINE

My favorite way to make skin glow without makeup is using Retrouvé's serum, cream, and eye concentrate like highlighters.
– *Michael Angelo, makeup artist.*

FASHION UNFILTERED

There are so many reasons why I am passionate about Intensive Replenishing Facial Moisturizer, but I can sum them up in two words: It works. – *Cathleen Klemm*

totalbeauty

Retrouvé's skin care line is gooky – and great.

Los Angeles
MAGAZINE

What goes into the high sticker price of Retrouvé's Intensive Replenishing Facial Moisturizer? An innovative exterior and high-quality ingredients in their purest forms would be the short answer, and the formula certainly feels luxurious. The texture borders more on a serum than a traditional moisturizer, and has a scent slightly reminiscent of a tall glass of kombucha. Our skin practically drinks in on contact.

InStyle

The Heideggers are hyperconscious about each product's ingredients, incorporating elements like the avocado oil harvested on their Malibu ranch in their Luminous Cleansing Elixir.

C MAGAZINE

What I like about the line is that it's very thoughtful—comprised of only a handful of products—and also potent without being harsh. Retrouvé uses a lot of naturally derived ingredients and produces the line in small batches in order to ensure freshness.

rip+tan

People think that whatever is newest is going to be better than what we've already been using, but often that isn't the case. The older ingredients may not be as sexy, but they have a proven track record of efficacy, nontoxicity, and non-irritation.

– *Jami Morse Heidegger.*

ELLE

Retrouvé is an unprecedented luxury skincare line that could only be created by a pedigreed virtuoso.
